Jane Henney, M.D.
Commissioner
Food and Drug Administration
5600 Fishers Lane, Room 1471
Rockville, MD 20857

July 28, 1999

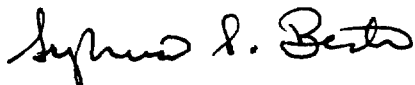

Dear Dr. Henney,

In order to better serve the public, the FDA should allow claims for natural products to be placed on the labels. Such items being contemplated presently are saw palmetto for relieving the symptoms of benign prostatic hyperplasia; psyllium husk seeds for reducing the risk of heart disease; folic acid, Vitamin B6, Vitamin B12 and Vitamin E to reduce the risk of cardiovascular disease.

I'm sure there are others which should also be considered and the FDA would do all of us a great service if we knew what would benefit our most important asset, our health.

Thank you for your careful consideration of this most important matter.

Sincerely,

Sylvia S. Beste
